SITUATION SUMMARY

National News – Significant Events

Stunt Plane, Second Aircraft Collide Midair Before Crashing Off L.A. Harbor; Search Underway

Two aircraft, one of them an aerobatic stunt plane, crashed into the water after an midair collision off San Pedro, prompting a multi-agency search for survivors on Friday afternoon, the Coast Guard confirmed. "Two separate tail identification numbers from two separate aircraft have been recovered and confirmed by the Federal Aviation Association," a release from the Coast Guard stated. One of the planes was a Beechcraft 35 Bonanza and the other was a Citabria, according to FAA spokesman Allen Kenitzer. The Citabria was described as an aerobatic stunt plane, according to Spencer Parker with L.A. County Lifeguards. Both aircraft were based out of the Torrance Airport, according to Capt. Jennifer Williams with the Coast Guard. The two men and one woman believed to be on board the two planes were all from the South Bay and ranged in age from 61 to 81 years old, Williams said. "We Found debris and other materials," Williams said. "We found a log book of one of the pilots that helped us ... ascertain that there would be two people -- two male passengers in one of the aircrafts," Williams said. Investigators also found a partial number on a FAA radar of the second plane that they used to identify an overdue aircraft from Torrance with a 72-year-old female pilot on board, Williams said.

International News – Significant Events

7 dead after magnitude-6.4 earthquake shocks Taiwan

At least seven people were killed Saturday morning when a magnitude-6.4 earthquake hit Taiwan, Taiwan's official Central News Agency reported. More than 200 people were rescued from damaged structures, many from a 17-story residential building that collapsed in Tainan, officials told CNN. At least five of the dead were from the Weiguan Jinlong building, CNA said. Rescuers are still trying to reach at least eight more people they've discovered trapped in the rubble. CNA reported earlier that a 10-day-old girl and a 40-year-old man had been killed in Tainan. More than 60 people in Tainan remain hospitalized, disaster officials said. A man who was staying in a three-story apartment building in Tainan told Chinese state media CCTV the building was shaking violently when the quake hit before sunrise. His room tilted 45 degrees, and items inside his room spilled all over the floor. Unable to use the stairs, he managed to escape from the window of the second floor. One woman told CNN affiliate EBC that rescuers had to cut a hole in order to help her family get out. "Fortunately we were stuck under a space created by a baby crib and a closet door, so that things won't fall on us and air was able to get in," she said from the hospital, where she was receiving treatment for a leg injury. "I was so afraid." Video shot by CNN affiliate SETTV showed rescuers helping several people from the rubble, including one man who had blood on his face. In another shot, rescuers carefully lower an elderly woman strapped to a backboard. Rescuers searching for victims trapped after quake 04:33 SETTV's aerial footage showed the collapsed 17-story building, with white smoke or dust still billowing from the destruction. More than 1,500 people are involved in rescue efforts, the disaster center said. Seven other buildings were damaged. Taiwan's outgoing President, Ma Ying-jeou, is on his way to the city, EBC reported. About 1.9 million people live in Tainan, Taiwan's oldest city. As of 5:30 a.m. (4:30 p.m. ET Friday), 121,672 homes and businesses were without power in Tainan The tremor was centered about 48 kilometers (30 miles) east-southeast of Tainan, the U.S. Geological Survey said.

SITUATION SUMMARY

Sixth Street Viaduct Closure, Los Angeles, Los Angeles County

- To allow demolition of the section of the viaduct over US Route 101 on the east side of the structure, the freeway will be closed for 40 hours, starting on Friday, 02/05/16 at 2200 hours and ending on Sunday, 02/07/16 at 1400 hours.
- A 2.5 mile section of US Route 101 will be closed from the 10/101 split to the 5/10/101 interchange just east of downtown Los Angeles. In addition, motorists travelling west on Route 60 from the Pomona area will not be able to access US Route 101.

Super Bowl 50

- The Cal OES State Operations Center (SOC) will be activated at Level 2 on Sunday, 02/07/16, to provide enhanced monitoring and support to local government and Cal OES field staff as needed.
- Super Bowl 50 activities have started in both San Francisco and San Jose as of 01/30/16, with major city road closures in San Francisco and minimal road closures in San Jose.
- The NFL Experience and Super Bowl City open in San Francisco. There will be numerous events occurring in the city through 02/07/16 (Super Bowl 50), including concerts and other large scale events.
- There are numerous events occurring in Santa Clara County.
- There are two multi discipline/multi jurisdiction conference calls daily, at 0700 hours and 1500 hours.
- San Francisco Department of Emergency Management (SF DEM) is activated from 1100 hours to 2300 hours at level 3 every day starting 01/30/16 and ending on 02/07/16.
- Santa Clara is activated with a Multi Agency Coordination Group (MACG) from 02/05/16 through 02/07/16.
- There are multiple other Departmental Operations Centers (DOCs) and local EOCs activating including a Joint Information Center (JIC).
- The Cal OES Law Branch, Cal OES Fire Branch, Cal OES Coastal Region, and Cal OES Telecommunications staff are actively monitoring and physically supporting all Super Bowl 50 events leading up to and including Game Day.
- Law Branch is monitoring scheduled protests.
- Cal OES agency representatives (AREPS) are embedded in various Local Government Operations Centers in the Bay Area.

SITUATION SUMMARY

Weather of Concern

Northern California

- A ridge of high pressure will be building over the west coast warming temperatures 10-15 degrees above normal for Northern California..

Southern California

- An extended period of Santa Ana conditions are expected through early next week as high pressure builds aloft and offshore flow persists.

River Forecasts

As of 0655 hours on 02/06/16:

- All River Guidance (Flood Forecast) Points are currently below critical stages.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Super Bowl 50 Weather Situational Awareness

In collaboration with local, state and federal partners, the San Francisco Bay Area National Weather Service (NWS) Weather Forecast Office (WFO) will provide enhanced decision support services to Emergency Management partners in support of their public safety efforts around the National Football League's (NFL) Super Bowl 50 and events leading up to the NFL championship game being held at Levi's Stadium in Santa Clara, California.

We will continue to send out a morning email briefing to serve as a broad weather outlook for the greater San Francisco Bay Area through at least Feb 8. If updates are made, an afternoon email briefing will also be issued. Additional forecast briefings will be disseminated based on partner request and/or weather demands.

Weather Summary

- High pressure will strengthen through the weekend delivering dry conditions and sunny skies. The stable conditions will trap pollutants in the lower levels during the overnight and early morning hours resulting in areas of haze or patchy fog. Temperatures will be well above normal topping out in the upper 60s to mid 70s for Saturday through Monday, cooling into the 40s at night. Our main concerns for public safety continue to focus on dangerous beach conditions and potential for rip currents and large shore breaks through Sunday.
- Minimal weather impacts expected through the weekend.
- Dangerous Beach Conditions: Heightened threat of rip currents and large shore break through Sunday. With the near record highs and many visitors to the area, there will be a concern for dangerous beach conditions.

7 Day Area Forecast for the Greater San Francisco Bay Area

Today: Haze in the morning then Sunny, with highs mostly in the middle 60s. Northwest wind between 5 and 7 mph.

Tonight: Clear, with lows mainly in the upper 40s. West northwest wind between 3 and 7 mph.

Sunday: Sunny, with highs mainly in the upper 60s. Northwest wind between 4 and 8 mph.

Sunday Night: Clear, with lows mainly in the upper 40s. Northwest wind around 5 mph.

Monday: Sunny, with highs near 70. East wind around 7 mph becoming northwest.

Monday Night: Clear, with lows near 50.

Tuesday: Sunny, with highs mostly in the upper 60s.

Tuesday Night: Mostly clear, with lows mostly in the upper 40s.

Wednesday: Sunny, with highs mostly in the middle 60s.

Wednesday Night: Mostly clear, with lows mainly in the upper 40s.

Thursday: Mostly sunny, with highs mainly in the middle 60s.

Thursday Night: Partly cloudy, with lows near 50.

Friday: Mostly sunny, with highs mainly in the lower 60s.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

High pressure is building into the area for the weekend and into early next week bringing dry weather to the area. Light rain is possible toward the middle of next week.

Medford Weather:

Gusty winds are a factor over the east side where a wind advisory is in effect. However it now looks like it will barely verify...and only around the usual windy spots like summer lake. The trough will move out to the east by daybreak Saturday and any lingering precipitation will end by then. The aforementioned strong ridge will then build into the area. Conditions will dry out quickly Saturday as the upper ridge builds and low level offshore flow develops.

Reno Weather:

High pressure will build over the great basin keeping dry conditions in place with generally light winds and valley inversions. A steady warming trend is expected with daytime temperatures well above normal through the upcoming week. A weak storm system may bring light rain and snow by next weekend.

San Francisco Weather:

High pressure continues today then strengthens Sunday and Monday with near record warmth possible across the region. The ridge begins to weaken by midweek but dry and seasonable weather is forecast through most of next week.

Sacramento Weather:

Dry weather and warm temperatures will occur this weekend into at least the middle of next week.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Hanford Weather:

High pressure will bring dry weather to the Central California interior for the next several days with patchy night and morning fog in the San Joaquin Valley. A day to day warming trend will bring high temperatures to well above normal by Sunday and will continue through the middle of next week.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

A combination of high pressure and gusty offshore winds will dominate the weather pattern through early next week. This combination will bring well above normal temperatures with near record temperatures on Monday and Tuesday.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

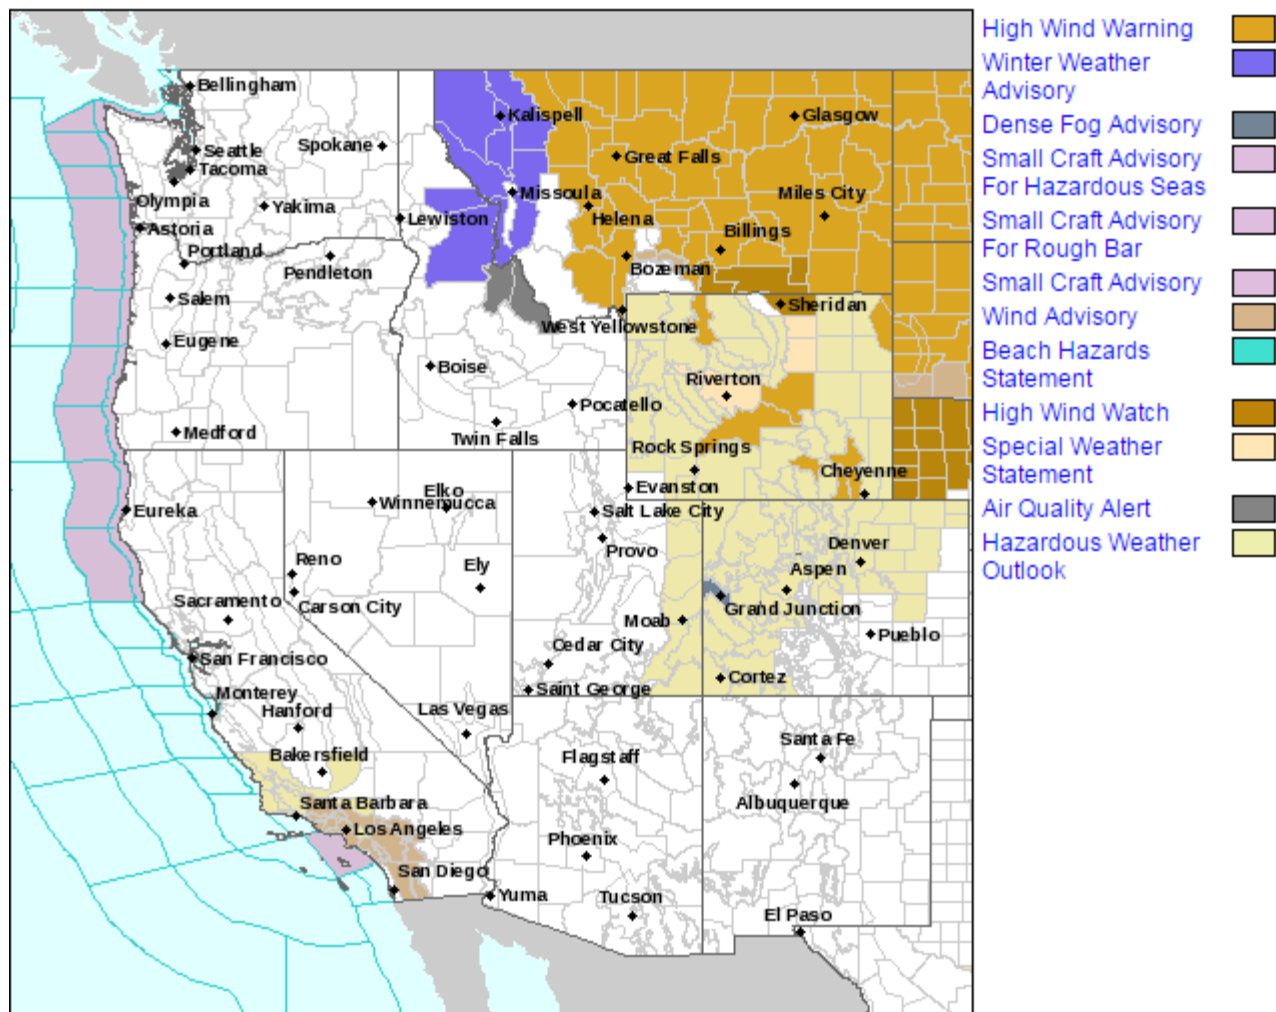

Warm and dry with gusty offshore winds through early next week. The strongest winds will develop Sunday night into Monday morning. Temperatures will be well above seasonal averages and the warmest days will be Monday and Tuesday when daytime temperatures will reach the mid to upper eighties in many areas west of the mountains. The offshore winds weaken after Tuesday and temperatures decrease but remain above seasonal averages.

Southeast California Weather:

Dry Northwest flow aloft with mostly clear skies will develop over the area through the weekend along with warmer temperatures. By next week a strong high pressure system will build over the region resulting in much above normal temperatures.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on the first Wednesday of each month.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 63 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 29 Counties: Butte, Colusa, Calaveras, El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 13 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County), City of Willits (Mendocino County), and City of Fort Bragg (Mendocino County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
